

BASCIL – Innovative Solutions for the Rural Food Production Sector to Diversify into Sustainable Culinary Tourism Services

In the BASCIL project, 15 partners in 8 countries will work on solutions for small local food producers to be able to diversify their business. By integrating conventional small-scale food production with culinary tourism services, it is possible to reach the end customers directly and obtain a higher value for their products with the shortest value chain.

Project period:

January 2023 – December 2025
